

Complete and Harmonized

Automated Assembly

Assembly is ALWAYS Changing...

Successful Automation – Everything Working Together

As one of the world's leading manufacturing companies, Bosch strives to be both a lead provider and a lead user of advanced technologies.

One of the most sophisticated operations is Bosch Rexroth's full-scale manufacturing line in the industrial hydraulics plant in Bethlehem, PA. The line mixes automated and manual systems with technology that connects operators, machinery, and parts to make 34,500 different product variants.

The result? Significant increase in productivity, coupled with invaluable experience gained in the deployment of these forward-thinking technologies.

What should AUTOMATION do for you?

Increase ROI

Accelerate Speed to Market

Solve Complex, Engineering Challenges

Boost Throughput

Increases Your Flexibility

Reduce Worker Injury

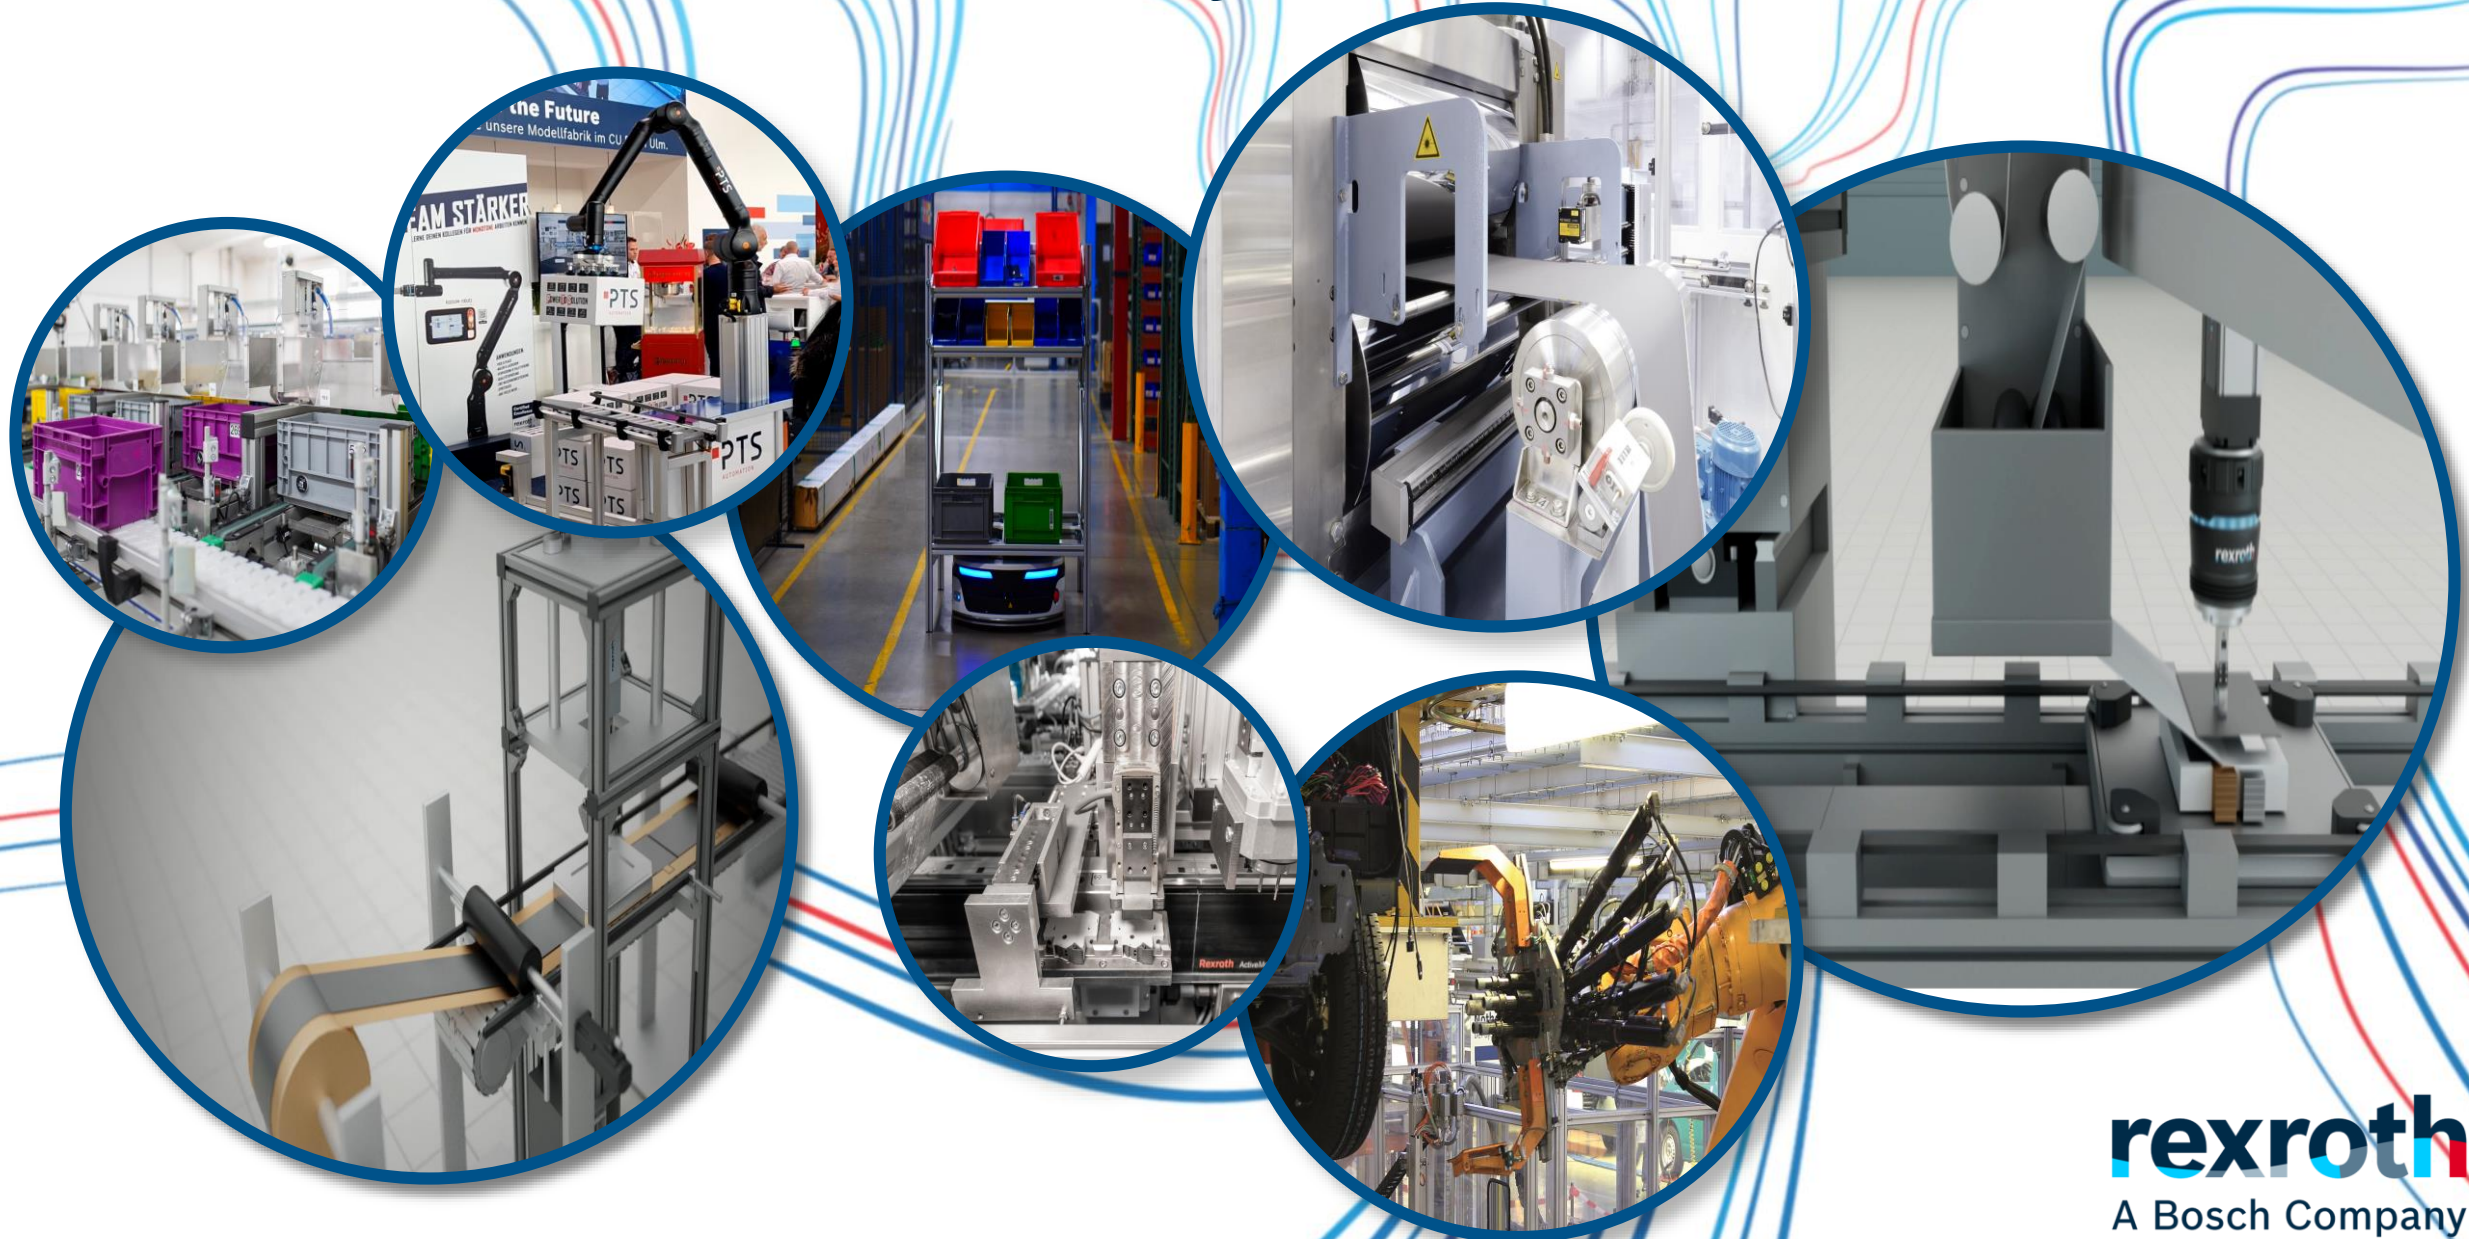

Expand Productivity

Reduce Operating Costs

Adapt to Fast-Changing Demand

What can AUTOMATION do for you?

The Future of Automation

A space where you can come face-to-face with current and future innovations.

HARMONIZED.

CUSTOMIZED.

COMPLETE.

FACTORY AUTOMATION - THE WAY IT SHOULD BE.

THANK YOU!
